Daybreak Daughter

1145M's mother. A beautiful young cow.

WELCOME!

It's bull sale season again. We look forward to showing our bulls on any day that works best for you.

The cattle market is as good as any of us can remember. Calves and yearlings are selling at record prices. Take advantage of these prices. It will take fewer steer calves to buy a bull this year than ever before.

We have been in the Hereford business for 55 years. Our program is built on the belief that maintaining strong performance while improving uniformity and predictability would increase the most important part of our business and our customers' bottomline. In doing this, our cowherd is as good as it's ever been. Special attention is paid to udders and feet, and we are selecting traits that keep in business we love.

The cattle are available for your inspection anytime. We appreciate each and every one of our customers, we are committed to your success.

HEALTH: Our bulls are on a full vaccination program at weaning and as yearlings. The bulls will be semen tested and vaccinated foot rot, pink eye, and wormed with a injectable wormer. The bulls are fully guaranteed breeders through the first breeding season.

DELIVERY: We will deliver the bulls to your place at our earliest we possibly can. If for some reason you need us to keep them for a longer period of time, we can work with you.

Daybreak's offspring are getting more impressive every year. His daughters are really good mother cows, with great udders and good dispositions, they are a real asset to our herd. We have some really good sons in the offering this year. They are out of our very best cows. Be sure to take a close look at them.

Expedition is the best bull to come along, in our program, in a long, long time. He does it all! Calving ease, great weaning and yearling weights, good udders and great carcass traits. He has been used by some of the breeders in the country, the reports we are getting are just what we expected, everybody loves them! We lost him last summer, so his offspring will be limited in the future. Get in on the ground floor of a great breeding bull.
